THA 2018 LEADERSHIP FELLOWS PROGRAM

Who drives innovation? Hospital leaders with the skills, network, and experience to drive change. Build all three by joining the next class of fellows.

Program Overview

The Texas Hospital Association Leadership Fellows Program is intended to **bring together health care leaders for a focused study in becoming effective health care advocates, and developing comprehensive knowledge on health care integration**. The program provides a collaborative and dynamic curriculum, which discusses the challenges of complex adaptive systems. THA fellows will grow as leaders and will be fully equipped to lead policy discussion, drive integration and create an environment that enables the best possible patient care outcomes.

Fellows engage with a diverse group of health care experts with varying perspectives and participate in a curriculum that sparks open, active dialogue and debate. Fellows will be transformed and their way of thinking forever changed.

Program Layout

The program consists of four modules taken over the course of one calendar year. Fellows meet in Austin at THA Headquarters. Each module consists of five elements:

- **Key policy core competencies.**
- **Real-time legislative updates.**
- **Quality and patient safety issues.**
- **Leadership and building engagement and**
- **CEO innovations.**

Program Goals

1. To develop the next generation of statewide influencers by equipping fellows with core competencies in key legislative policy issues.
2. To expose fellows to the functional areas of THA and its board of trustees.

3. To provide experiential learning opportunities that will enable fellows to form meaningful connections with key policy shapers in Texas.

4. To create effective leaders who can engage elected officials and affect change for their organizations at the state and national level.

5. To recognize each fellow and offer opportunities of exposure through project work, presentations and publications.
